

Name : Vivek Singh
RegNumber : 230905408
Roll Number: A50

Lab 3: HW

Q1) Design an attractive ‘train ticket booking form’ using different bootstrap elements.

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <title>Train Ticket Booking</title>
  <link href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.2/dist/css/bootstrap.min.css" rel="stylesheet">
</head>
<body class="bg-light">

<div class="container mt-5">
  <div class="card shadow">
    <div class="card-header text-center bg-primary text-white">
      <h4>Train Ticket Booking</h4>
    </div>

    <div class="card-body">
      <form>
        <div class="row mb-3">
          <div class="col">
            <label class="form-label">From</label>
            <input type="text" class="form-control" placeholder="Source">
          </div>
          <div class="col">
            <label class="form-label">To</label>
            <input type="text" class="form-control" placeholder="Destination">
          </div>
        </div>

        <div class="row mb-3">
          <div class="col">
            <label class="form-label">Journey Date</label>
            <input type="date" class="form-control">
          </div>
          <div class="col">
            <label class="form-label">Class</label>
            <select class="form-select">
              <option>General</option>
              <option>Sleeper</option>
              <option>AC</option>
            </select>
          </div>
        </div>
      </form>
    </div>
  </div>
</body>
```

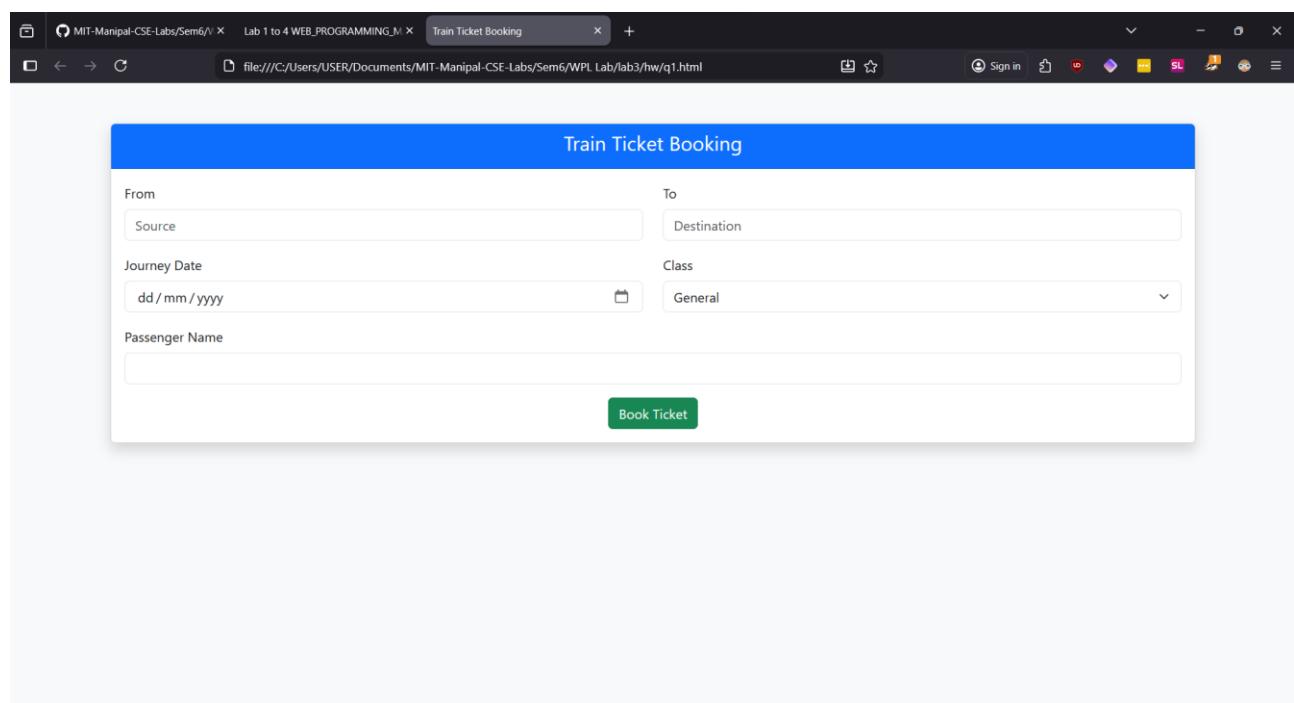

```

<div class="mb-3">
  <label class="form-label">Passenger Name</label>
  <input type="text" class="form-control">
</div>

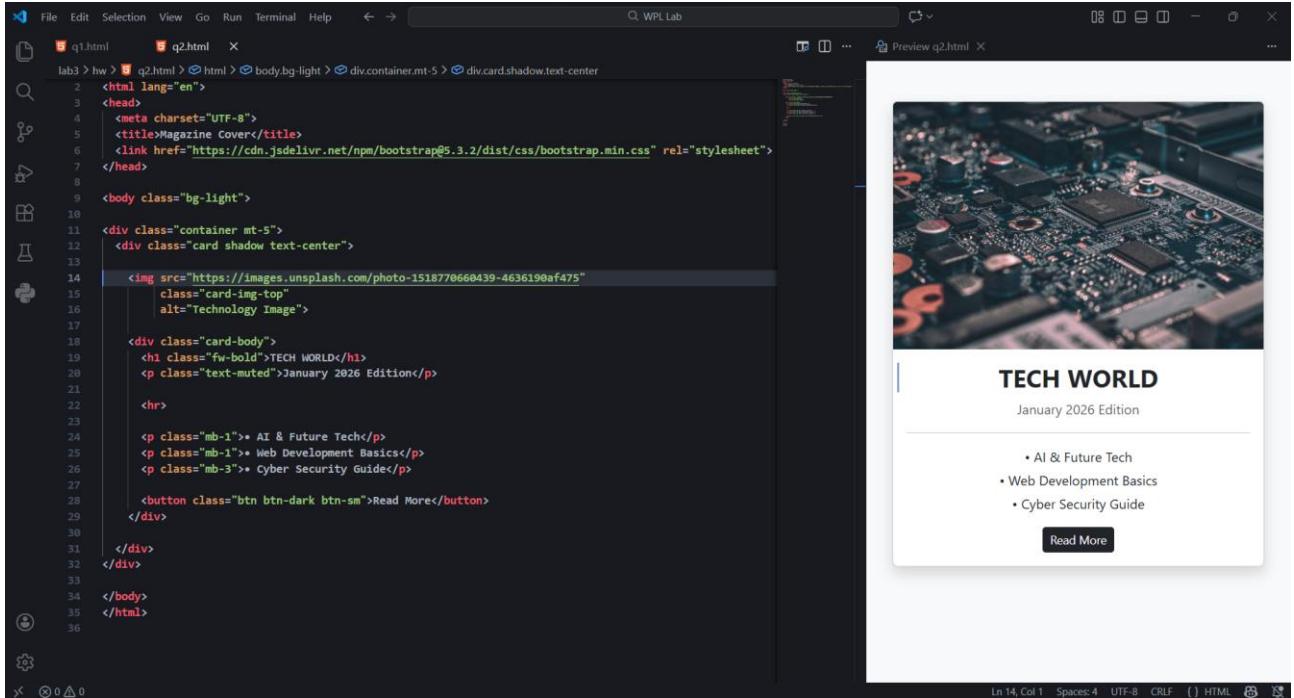

<div class="text-center">
  <button class="btn btn-success">Book Ticket</button>
</div>
</form>
</div>
</div>

</body>
</html>

```

Q2) Design an attractive ‘magazine cover page’ using different bootstrap elements.

The screenshot shows a code editor interface with two tabs: 'q1.html' and 'q2.html'. The 'q2.html' tab is active, displaying the following HTML code:

```
lab3 > hw > q2.html > body.bg-light > div.container.mt-5 > div.card.shadow.text-center
1 <html lang="en">
2   <head>
3     <meta charset="UTF-8">
4     <title>Magazine Cover</title>
5     <link href="https://cdn.jsdelivr.net/npm/bootstrap@5.3.2/dist/css/bootstrap.min.css" rel="stylesheet">
6   </head>
7
8   <body class="bg-light">
9     <div class="container mt-5">
10       <div class="card shadow text-center">
11         
14
15         <div class="card-body">
16           <h1 class="fw-bold">TECH WORLD</h1>
17           <p class="text-muted">January 2026 Edition</p>
18
19           <hr>
20
21           <p class="mb-1">* AI & Future Tech</p>
22           <p class="mb-1">* Web Development Basics</p>
23           <p class="mb-3">* Cyber Security Guide</p>
24
25           <button class="btn btn-dark btn-sm">Read More</button>
26         </div>
27
28       </div>
29     </div>
30
31   </body>
32
33 </html>
```

The preview window on the right shows a magazine cover design. It features a background image of a computer motherboard. The title 'TECH WORLD' is displayed in bold black font at the top, followed by the subtitle 'January 2026 Edition'. Below the title is a horizontal line. Underneath the line, there are three bullet points: 'AI & Future Tech', 'Web Development Basics', and 'Cyber Security Guide'. A dark button labeled 'Read More' is located at the bottom right of the card area. The status bar at the bottom of the code editor indicates 'Ln 14, Col 1 - Spaces: 4 - UTF-8 - CRLF - HTML'.
